High-quality colour support for midsize workgroups

The Lexmark C746 Family colour laser printers deliver the easy-to-use features and reliable performance essential to midsize workgroups. Energy-saving features make responsible printing easy.

Robust high-quality colour

Rely on Lexmark C746 Family colour laser printers for the high-quality colour printing essential to business. Speed and reliability mean minimal waiting and few interruptions. You consistently and quickly receive vibrant documents.

- Match corporate colours on marketing collateral and brand-sensitive text and graphics with Lexmark Named Color Replacement and PANTONE® calibration.
- The high-speed processor and Gigabit Ethernet networking mean fast data transfer and fast processing, even on complex colour documents.
- Print quickly at speeds up to 33 ppm and a time to first page as fast as 9 seconds in both black and colour.
- Lexmark cartridges let you print up to 12,000 pages per cartridge in black and 7,000 pages per cartridge in colour.[1]
Productivity made easy

The combination of easy-to-use features and reliable performance means business processes are intuitive and you are productive. Increase efficiency with workflow-enhancing shortcuts designed to reduce unnecessary printing and simplify processes.

- The 6 cm (2.4 inch) LCD is easy to read and the colour graphics make navigation and troubleshooting intuitive.
- Expand input capacity with optional paper drawers that let you load multiple paper types and boost total input capacity up to 4,300 sheets.
- Create customised messages to provide helpful information, such as helpdesk telephone numbers.
- Easily manage supplies though programmable alerts that automatically send reorder notifications.

Sustainable by design

Environmentally friendly printing and energy-saving features make it easy to print responsibly. Use fewer raw materials with features that reduce the number of pages printed and free cartridge return and recycling programmes.

- Use less electricity with Hibernate Mode, which reduces energy consumption to less than one watt and meets multiple energy management standards.
- Choose from multiple print settings that help reduce energy, paper and toner consumption using custom Eco-Settings.
- Cartridges are eligible for the Lexmark Cartridge Collection Program (LCCP), which offers a variety of free, easy return options designed for your business size and printing volume. For more information visit www.lexmark.com/recycle.[2]
- Reduce paper consumption by up to 50% and reduce your impact on the environment with two-sided printing.[3]

This is an FCC Class A device. Not intended for use in residential or domestic environments.

1.

Easy brand matching

Consistently match branded colours and print marketing collateral in-house with Lexmark Named Color Replacement.

2.

Flexible input capacity

With the optional 550-sheet drawers, a specialty media drawer and 2,000-sheet high-capacity feeder, customise input options to meet your printing needs.

C746dn

3.

Use less energy

The instant warm-up fuser reduces energy consumption and delivers a time to first page as fast as 9 seconds in both black and colour.

4.

Walk-up USB printing

The front USB port allows for convenient walk-up printing of PDFs and many printable image file formats.

5.

Multiple media support

Ultra-reliable paper feeding supports diverse media, including card stock, vinyl labels, banners and more.

6.

Fast data transfer

Gigabit Ethernet networking lets the device accept print jobs across a network quickly.

7.

Eco-friendly printing

Print responsibly with Eco-Settings that let you customise print settings and Hibernate Mode which reduces energy consumption to less than one watt.
8.

Advanced security

Protect your device, data and network with innovative security controls, like authentication and authorisation.

[1]Average continuous black or continuous composite CMY declared cartridge yield up to this number of standard pages in accordance with ISO/IEC 19798. [2]Actual Yield may vary based on other factors such as device speed, paper size and feed orientation, toner coverage, tray source, percentage of black-only printing and average print job complexity. [3]"Maximum Monthly Duty Cycle" is defined as the maximum number of pages a device could deliver in a month using a multishift operation. This metric provides a comparison of robustness in relation to other Lexmark printers and MFPs. [4]"Recommended Monthly Page Volume" is a range of pages that helps customers evaluate Lexmark's product offerings based on the average number of pages customers plan to print on the device each month. Lexmark recommends that the number of pages per month be within the stated range for optimum device performance, based on factors including: supplies replacement intervals, paper loading intervals, speed, and typical customer usage.

This is a Class A device according to the FCC Rules and EN 55022/EN 55032 emissions standards. This device is not intended for use in residential or domestic environments due to potential interference to radio communications.
